To Whom It May Concern

I highly recommend Atanas Ginev for any Webmaster position you may be considering him for. Atanas worked with me while I was CEO at StivaSoft.

I was quite impressed by Atanas's ability to complete all work assigned to him on time. His coding were always thorough and comprehensive, and his error checking always accurate. The ability to switch gears and approach any project with a fresh perspective and a basis of knowledge is critical to an in-house group which services an entire organization. Our company has been no exception to this. Fortunately, Atanas has gained such a varied background in this role that he has easily been able to tackle our many different project types.

As you can tell, I have enjoyed working with Atanas very much, but not only for the reasons cited above. Most important is a person's work ability to work with competing deadlines and priorities, and still be pleasant and fun to work with. Atanas is simply a very nice person with a good work ethic that has made working with him a pleasure.

I have no doubt that Atanas will quickly pick up whatever skills will be required in his next job, as he has with this one, and that he will be a great asset to his next employer. Despite of feeling bad for losing one of the best employees so far yet for any further specific info/query you are welcome to get in touch with me. I am happy to offer a personal reference by phone.

His pleasant personality will be missed by everyone here and we wish him the best of luck.
